

[Spring Cloud OpenFeign](#) / [Introduction](#)

Spring Cloud OpenFeign

This project provides OpenFeign integrations for Spring Boot apps through autoconfiguration and binding to the Spring Environment and other Spring programming model idioms.

WARNING

As announced in [Spring Cloud 2022.0.0 release blog entry](#), we're now treating the Spring Cloud OpenFeign project as feature-complete. We are only going to be adding bugfixes and possibly merging some small community feature PRs. We suggest migrating over to [Spring Interface Clients](#) instead.
